Purpose of Contact: requirements for closure of on-site impoundment at
Tennessee Electroplating

Significant Topics Discussed: _____

- EPA did not approve closure without putting in monitoring wells
- Tennessee Electroplating did submit a closure plan
- Tennessee Electroplating argued that they did not want to put in wells until the delisting decision was finalized; they ~~they decide~~ decided to chance decided to take a chance and close without the wells, knowing that if their petition was denied that they would be held liable
